### Redefining access to evidence-based clinical guidance

eGuidelines+ is an online facility subscription providing access to the most current AORN *Guidelines for Perioperative Practice* complete with tools, customizable templates and resources to empower your team to apply standardized techniques facility-wide.

### Additional Resources Available:

#### Accreditation Assistant for the Joint Commission Standards

Prepare for your next survey and save valuable staff time. Meet Joint Commission criteria through crosswalks between the Commission's Elements of Performance and AORN Guidelines. The Accreditation Assistant corresponds to the Commission's categories: Ambulatory, Critical Access Hospital, Hospital, Office-Based Surgery, and Sterile Processing.

#### Accreditation Assistant for the AAAHC Survey

Efficiently and effectively prepare your ASC staff for the AAAHC survey.

#### Online Book Libraries

Get book libraries from The Association for Radiologic & Imaging Nursing (ARIN) and National Association of Orthopaedic Nurses (NAON) through a separate subscription.

Designed for both the OR and Ancillary departments:

- Endoscopy
- Cardiac Catheterization Lab
- Electrophysiology
- Infection Prevention
- Interventional Radiology
- Sterile Processing

*Guideline+ facility subscription required for Accreditation Assistant subscription..*

*The Joint Commission is a registered trademark of the Joint Commission. AAAHC is a registered trademark of the Accreditation Association for Ambulatory Health Care. The Joint Commission and AAAHC have not reviewed or endorsed this tool. Facility use of The Joint Commission and AAAHC accreditation standards is subject to the respective copyrights owned by The Joint Commission and AAAHC.*
