SAFE SURGERY TOGETHER

eGuidelines Plus is the one-stop resource that allows hospitals, ASCs, and health systems to quickly and easily access the *Guidelines for Perioperative Practice* and evidence-based clinical support tools to improve patient safety and quality outcomes.

Quick Answers to Urgent Perioperative Questions

Your surgical team, facility, and system will benefit from eGuidelines Plus's 24/7 access to integrated tools and resources that include:

- COVID-19 Perioperative Playbook
- 33 Guidelines for Perioperative Practice — viewable based on the level of detail you need: Full, Outline, and Quick View.
- 200+ easy-to-search Clinical FAQs
- In-Service PowerPoint Templates
- Illustrated, step-by-step At a Glance guides covering Anesthesia, Medication, Procedures, Positioning, and Skin Prep
- Detailed, instrumentation pop-ups within Procedures At a Glance
- Customizable Policy and Procedure Templates
- Customizable Competency Verification tools
- Perioperative Job Descriptions
- Audit Tools, Gap Analysis Tools, and Implementation Road Maps
- Case Studies, Clinical Calculators, Checklists, and more

Be Prepared for Your Next Survey with the Accreditation Assistant*

Meet Joint Commission criteria with access to the four programs that correspond to the commission's categories including Ambulatory, Critical Access Hospital, Hospital, Office-Based Surgery, and Sterile Processing.

Quickly Access eGuidelines Plus from Your EHR Content

AORN Syntegrity + eGuidelines Plus enables you to access evidence-based recommendations directly from your EHR content. Learn more at: aorn.org/syntegrity
