

Periop 101: A Core Curriculum™

ASC Nurse — Learning Plan

ASC Periop 101 is designed specifically to educate and prepare your new perioperative nurses in an ASC setting. These modules focus on patient and worker safety, aseptic practice, equipment safety, patient care, sterilization, and pre- and postoperative care for the ASC patient. This package includes the 27 online learning modules listed below. All Periop 101 students who are licensed nurses will receive 43.3 contact hours after passing the final exam.
