House of Delegates: March 2022 DEI Report

James L. Cousin II, CPA and MBA
CFO and Chief Diversity Officer
How We Got Started

After the death of George Floyd and outpour from our communities and organizations, a comprehensive DEI plan was developed. On July 9, 2020, the AORN Board of Directors approved the plan.
How DEI Can Influence Perioperative Nursing

“How healthcare organizations and leaders have a growing responsibility to improve DEI efforts not only for their employees, but also to better serve patients and their families. DEI has been a recent focus for businesses and organizations, but none stand to make a greater impact than the healthcare industry, as it directly affects patient health outcomes and quality of life.”
