

PUT YOUR EHR TO WORK

AORN Syntegrity enhances your electronic health records with leading edge perioperative content. This makes nurses happy, which leads to safer patients and lower costs.

Surgical Scheduling Procedure List

Out-of-the-box EHRs might come with basic perioperative procedures, but only AORN Syntegrity provides complete access to over 3,000 procedures, all of which are referenced to:

- CPT®
- ICD-10-PCS
- SNOMED-CT®

Additionally, our procedure list is maintained and updated by perioperative clinicians who work in the field.

Standardized Nursing Documentation with Perioperative Nursing Data Set

Nursing documentation burnout is a leading cause of job dissatisfaction. Standardized essential documentation from AORN Syntegrity can enable your team to:

- Benchmark data
- Identify best practices
- Reduce documentation burden

Plus, we provide embeddable hyperlinks to AORN eGuidelines+ for fast, on-the-go clinical practice support.

Specialty Content

AORN is proud to be leading the charge to help specialty surgical centers maintain focused, accurate and streamlined documentation. Specialty content areas include:

- Endoscopy
- Ophthalmology
- Orthopedics

Plus, we are continuously adding new areas of practice.

If patient safety is your top priority, AORN Syntegrity can help.
