

PERIOP 101: PERIOPERATIVE CARE FOR THE NON-RN

Not Everyone in the OR is a Nurse or Surgeon

AORN has created a course designed for clinical professionals to enable them to see and participate safely during invasive surgical procedures and to help keep patients safe.

This course provides clinical content based on *AORN Guidelines for Perioperative Practice*, featuring redesigned modules, improved functionality and interactivity to provide valuable information and resources to allied health professionals as they step into the perioperative environment.

Administrator Support

Two-year access, from date of purchase to assign learner seats.

Administrator Implementation Course (.75 CHs)

Learner Support

Six-month access to complete the course

Nine modules

15.7 CH* awarded to learners after successful completion of course

This program is approved for up to 15.7 hours of AEU by BASC Provider #0102.

This course includes the following nine learning modules:

- Anesthesia
- Hemostasis Management
- Patient Positioning
- Safe Use of Equipment
- Sterile Technique
- Surgical Draping
- Surgical Environment & Safety
- Surgical Hand Antisepsis & Scrub Attire
- Surgical Instruments

Periop 101: Perioperative Care for the Non-RN is designed for:

- Advanced Practice Nurses
- Health Professionals new to the perioperative environment
- Interns
- Medical Students
- Physician Assistants (PAs)
- Residents

For more information, contact an AORN Account Executive at periopsolutions@aorn.org

**This course is primarily intended to educate clinical team members who are not RNs about safe surgical practices. Non-RNs are not eligible for continuing nurse education contact hours.*
