In-Service of the Month

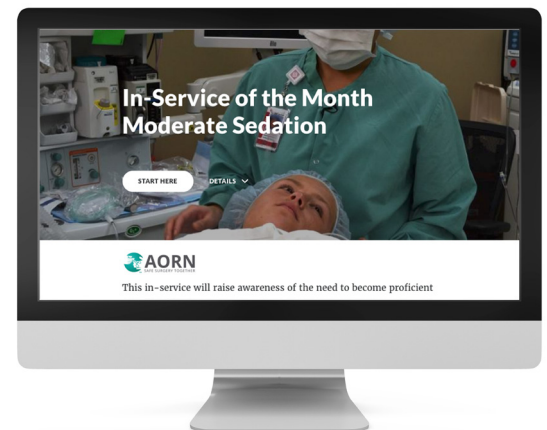

As outpatient perioperative practice, environments, and technologies continually evolve, leaders are challenged to stay on top of staff education and regulatory requirements. The **In-Service of the Month**, developed by AORN's perioperative experts, provides a library of ready-to-use training resources to streamline your monthly in-service program and broaden your staff's knowledge and competencies.

WHY USE IN-SERVICE OF THE MONTH?

With standardized, evidence-based content at your fingertips, you save time while remaining confident your staff will receive high-quality, implementable education.

IN-SERVICE OF THE MONTH INCLUDES:

- Convenient 24/7 access to a library of relevant topics based on the *Guidelines for Perioperative Practice*.
- A package of tools and resources on each topic, such as a quick view, case study, journal article, and presentation
- Customizable content to fit your facility's needs
- Earn contact hours for each in-service completed*

WHO IS THIS FOR?

The in-service of the month is ideal for onboarding new nurses, meeting accreditation and regulatory requirements, and ongoing training for your surgical team on evidence-based practices.

➔ **Visit aorn.org/asc to learn more.**

*To earn contact hours, the learner must complete and review all components of the in-service and the evaluation.
